2nd Jumu'ah Khutbah at 2: 00pm

Important NOTE about Fajar Time!!!

In **SUMMER**, **from 22nd May to 22nd July**, the Night duration is very short hence the Sun does not go down to the point of 18 degrees, which means that in these **two months** the Fajr time does not even enter, so in this period Islamic Jurists (Fuqaha) have given 4 methods to estimate Fajr time. 1) Nearest day. 2) Nearest country. 3) Half of the night. 4) 1/7 of the night.

For Ramadhan for the convenience of the people we choose **4th method** till Eid Ul Fitr,afterward method 1(nearest day}is used.

*****If the moon is sighted after Maghrib on Monday 4th June Eid will be on Tuesday otherwise Eid will be on Wednesday 5th June,*** EID Mubarak**
